Postdoctoral Fellowship in Rehabilitation Policy Research

A unique opportunity for professionals in disability, aging, and health policy

The University of Washington, in partnership with Columbia University's Health and Aging Policy Fellows Program, is pleased to announce a two-year postdoctoral fellowship for individuals with an interest in the intersection of aging, disability, and health policy research. This program is funded by the National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR).

What is the Program?

The fellowship is a mentored, two-year training experience that includes a salary stipend, funds for travel and coursework, and some relocation expenses. During the first year, fellows will conduct interdisciplinary research in disability and rehabilitation in the Department of Rehabilitation Medicine at the University of Washington in Seattle. In the second year, fellows will relocate to Washington D.C., where they will join the Health and Aging Policy Fellows program, which includes a one-year placement in a federal agency or policy institute.

Who Should Apply?

This program is interdisciplinary and invites applicants with a doctoral level degree including PhD, PsyD, MD, JD, or equivalent) from any discipline with a policy component. This includes rehabilitation sciences, psychology, nursing, social work, PT/PT, epidemiology, public health, health services research, public administration, economics, medicine, or law.

We are seeking applications across career stages, from those with new doctoral degrees to those looking for more policy or research training mid-career.

How to Apply:

Interested applications should first reach out to the program PI Dr. Ivan Molton (imolton@uw.edu) or co-PI Dr. Tracy Mroz (tmroz@uw.edu) for more information about the program and to establish fit. Program staff are happy to schedule calls to discuss the program in more detail. To be considered, applicants will submit a CV, personal statement, and letters of support.

<u>**Application Deadline:**</u> **March 17, 2023**

Start date is flexible but expected to be early October 2023
